

Changing the Authorized User for an Individual License of ExtendSim

Under the terms of the ExtendSim Software License Agreement, a corporate or government entity may transfer an ExtendSim license from the "original" Authorized User to a "new" Authorized User no more than once a year and provided certain conditions are met. To transfer the license::

1. Revoke the license from the device of the "original" Authorized User using the *Help > Revoke License Activation* command in ExtendSim.
2. Uninstall ExtendSim from the device of the "original" Authorized User.
3. Install ExtendSim on the device of the "new" Authorized User. Typically this would be accomplished by downloading and installing a Trial version of the appropriate ExtendSim product from our website at www.ExtendSim.com.
4. Launch ExtendSim on the device of the "new" Authorized User and activate it using the original Activation Key.
5. Complete the information below and return the form to Sales@ExtendSim.com.

Two signatures are required:

- The signature of the "new" Authorized User.
- And, either the signature of the "original" Authorized User or (if that person isn't available) a manager or someone else at the company who is aware of the transfer.

By signing below, the "new" Authorized User agrees to be bound by the terms and conditions of the *ExtendSim Software License Agreement*.
