ExtendSim CP -- Continuous process modeling with internal Relational Database, Optimizer, Scenario Manager, and Multicore Analysis.

ExtendSim DE -- Adds a comprehensive message-based discrete event architecture to CP.

ExtendSim Pro -- Adds discrete rate, reliability block diagramming, and other advanced simulation technologies to DE.

Analysis RunTime -- Analysis tool for running pre-built models.

Maintenance & Support Plan (MSP) -- Required for all the above licenses to continue receiving updates, upgrades, support, and the ability to launch multiple instances of ExtendSim using Multicore Analysis.

License Types

Individual Model Developer Edition

- Designed to be utilized by a single user on a single computer.
- Shared use, use by more than one individual, or use over a network or the internet is prohibited under this License Option.

Floating Licenses

- The Floating license allows a specified number of simultaneous ExtendSim users on multiple computers in a network environment. It's typically cost-effective when you have 3 or more part-time ExtendSim users (full-time users need Individual licenses.)
- A Floating License must be installed and used within a single, specified continent.

Node-Locked Licenses

- The Node-Locked license is for sequential use on one physical computer. The Node-Locked license is not for use on virtual machines.
- It can be installed on only one computer, but allows multiple users on that computer access to ExtendSim. Perfect for secure environments where many people may need to occasionally access ExtendSim.

Notes

- These prices are only available for purchases made directly from Andritz Inc. or its online store and are subject to change without notice.
- Individual and Node-Locked licenses plus Maintenance & Support Plan renewals can be purchased using a credit card in the ExtendSim Store at www.ExtendSimStore.com.
- All other products are only available directly from the ExtendSim Team at Andritz Inc. or your local ExtendSim Distributor.
- Payment terms are prepaid (Visa, MasterCard, American Express, Discover, or check). POs may be accepted on approval of credit and are due and payable in 30 days. Payments after 30 days are subject to a late fee of 1% per month.
- Export restrictions apply. ExtendSim products purchased under this schedule may not be sold outside of your country without prior approval.
